PROFESSIONAL SUMMARY

Python Full Stack Developer and MCA graduate (CGPA 9.11/10) with foundational AI/ML knowledge. Hands-on experience building backend services and web applications using Python, Django, REST APIs and SQL databases. Built a Django CRUD application and an end-to-end CNN image classifier, and completed a Python Full Stack internship. Comfortable with debugging and testing. Seeking an entry-level Python Full Stack Developer role to build scalable software applications.

TECHNICAL SKILLS

- **Programming:** Python, Object-Oriented Programming (OOP)
- **Web Development:** HTML5, CSS3, JavaScript
- **Backend:** Django, REST APIs
- **Database:** MySQL, SQL
- **AI / ML (Basics):** Machine Learning Fundamentals, Deep Learning, CNN, Data Preprocessing

PROJECTS

Identification of Fake Indian Currency **2026**

Python, CNN, Deep Learning, TensorFlow/Keras, OpenCV

- Developed a CNN-based image classification model to distinguish genuine from counterfeit Indian currency notes.
- Performed image preprocessing and data preparation to build a training-ready dataset.
- Trained and evaluated the model, applying CNN techniques to learn visual patterns that separate genuine and fake notes.
- Applied the machine learning workflow end to end: data preparation, training, evaluation and iteration.

Notes Management System **2026**

Python, Django, HTML, CSS, SQL

- Built a web application with Django for creating, viewing, editing, deleting and categorizing notes.
- Implemented backend logic using Django models, views, URL routing and templates following the MVT architecture.
- Designed database schemas and performed database operations through the Django ORM and SQL.
- Developed the user interface with HTML and CSS, and debugged and tested features throughout development.

INTERNSHIP EXPERIENCE

Python Full Stack Intern, M/S. Sattva Infotech, Tirupati, Andhra Pradesh **Jan 2024 - May 2024**

- Worked on Python-based full-stack development tasks across coding, debugging and testing, under team supervision.
- Applied Python programming concepts to application development tasks.
- Gained practical exposure to the software development lifecycle, debugging workflows and problem-solving practices.

EDUCATION

Master of Computer Applications (MCA) **CGPA: 9.11/10**
Sri Venkateswara College of Engineering (SVCE), Tirupati 2024 - 2026

Bachelor of Computer Applications (BCA) **CGPA: 7.8/10**
SDHR Degree College, Tirupati 2021 - 2024

CORE STRENGTHS

Problem Solving, Adaptability, Communication Skills, Team Collaboration, Time Management
